

Titania

Queen of the Spring Court and the power behind Iragon’s oath. Titania is the fey sovereign whom Iragon Midsommar serves and from whom much of his sense of purpose originates. In Iragon’s remembered encounter with her, she renewed his oath and charged him with cleansing the blight connected to Versy Wood, offering a boon for success and banishment from her court should he fail.

TITANIA

QUEEN OF LIGHT AND LIFE

ELADRIN • FEY QUEEN • ARCHFEY

Titania is the radiant sovereign of the Spring Court and Queen of Light and Life. She embodies renewal, growth, beauty, and the unyielding cycle of life. Her presence inspires hope, dread, and reverence in equal measure. She speaks with grace, sees with ancient wisdom, and protects her realm with utmost fury when threatened.
