

# Vault2 - Full Infrastructure Report (May 2026)

## Vault2

Primary Homelab Server • 192.168.1.251

Last Scanned: 24 May 2026

## System Overview

### Operating System

Debian GNU/Linux 11 (bullseye)

Kernel: 6.1.0-0.deb11.11-amd64

### Hardware

Intel Xeon E5-2650 v1 (8 vCPU @ 2.00GHz)

13 GiB RAM

### Network

ens192: 192.168.1.251/24

Gateway: 192.168.1.1

Tailscale: Active

## Critical Issues

**CRITICAL:** `/mnt/HDD03` is 100% full (5.4 TiB used of 5.5 TiB).

This is a major risk for data integrity and container stability.

**High Memory Usage:** 8.7 GiB used out of 13 GiB (67%+).

## Storage

Mount	Size	Used	Available	Use %	Status
<code>/dev/sda1</code>	294 GiB	130 GiB	149 GiB	47%	OK
<code>/mnt/HDD03</code>	5.5 TiB	5.4 TiB	51 GiB	<b>100%</b>	CRITICAL

/srv/dev-disk- ...	7.0 TiB	5.9 TiB	1.2 TiB	84%	Warning
-----------------------	---------	---------	---------	-----	---------

# Docker Environment

## Active Compose Projects:

- **manyfold** (3 containers)
- **craig** (3 containers)
- **wordpress** (2 containers)
- **nginx** (2 containers)
- vaultwarden3, meshcentral, portainer, ampache, audiobookshelf, filebrowser, trilium, tsmas

## Notable Running Containers

Container	Image	Status	Ports
nginx-proxy-manager	jc21/nginx-proxy-manager	Up 2 weeks	80, 81, 443
vaultwarden3	vaultwarden/server	Healthy	66
portainer	portainer/portainer-ce	Up 2 weeks	8000, 9443
meshcentral	typhonragewind/meshcentral	Up 2 weeks	8086
manyfold	ghcr.io/manyfold3d/manyfold	Up 2 weeks	3214
craig	Custom stack	Up 2 weeks	3010, 5029, 5432, 6379

## Exposed Services (Selected)

**Public / Reverse Proxy:** 80, 81, 85, 443, 4443

**Management:** 8000 (Portainer), 8086 (MeshCentral), 9443 (Portainer)

**Applications:** 66 (Vaultwarden), 1336 (Audiobookshelf), 3214 (Manyfold), 32100 (Trilium), 6680 (Ampache), 7070 (Filebrowser), 8787-8788 (Tsmas)

**Databases (internal):** 5432, 6379, 3306

## Access & Management

- **SSH Access:** Key-based authentication configured for user `hermes`
- **Groups:** docker, ssh, adm, systemd-journal
- **Remote Management:** Accessible from WAZUH (192.168.1.142) via dedicated SSH key
